My story is REDEMPTION coming from where I'm from a lot of people do not go to college and in high-school I was never a good student and always one that people thought would never make it but I proved everyone wrong by coming to college and not only am I active on campus but I maintain a 3.0 cumulative GPA

4. "First time" experiences at your HBCU?*

5. Who are the professors that have impacted your life in and out of the classroom? How did they do that?*

I would have to say without a doubt Dr. Issa. This man truly cares about the students and can relate to us. However I also feel that he is being taken for granted and over looked and may be one of those people that does not get full recognition until he is no longer with our institution sadly.
