

Neque Willis, North Carolina A & T State University- c/o 2011, Industrial and Systems Engineering

Name : Neque Willis

Your HBCU : North Carolina A & T State University

Graduation Year : 2011

Major : Industrial and Systems Engineering

1. Where are you from? Who introduced you to HBCUs?*

N/A

(Professor Vinson of the Engineering Department)

2. Why did you choose an HBCU over a pwi?*

My Major is Industrial and Systems Engineering. I chose it because of my fascination with systems and how things in society operate. Also because of its research in human ergonomics. With my degree, I plan to go to graduate school to pursue a degree in Nanotechnology to help propel my goals in Industrial Engineering.

3. What is the story of your "experience" at Your HBCU given its heralded status as a stellar and prestigious institution?*

North Carolina A&T State University is truly a place that is near and dear to my heart. I love this University and every aspect of it. The people, the campus life, the alumni! A&T is a prestigious University that has graduated so many successful graduates! It provides its students with so many opportunities. It truly is your home away from home.

It is okay - not everyone loves PDA like President Obama and His Wife

4. "First time" experiences at your HBCU?*

N/A

5. Who are the professors that have impacted your life in and out of the classroom? How did they do that?*

All my professors have left an impression on me. But my advisor, Mrs. Vinson has been the best! She's always there for me beyond just academics! She plays the "mama" role since my mom is so far away. She's someone I can go find and just vent, and who will give me advice.
